Motivated PHP/Laravel Backend Developer and Computer Science student with hands-on experience in building MVC applications, RESTful APIs, and relational databases. Experienced in delivering functional web solutions through freelance projects, academic work, and self-learning. Skilled in writing clean, scalable PHP/Laravel code and eager to contribute to real-world development teams.

EXPERIENCE

2025 TO PRESENT

LARAVEL DEVELOPER

UNIVERSAL LINKS TECHNOLOGIES

PHP/Laravel Backend Developer with 1 year of professional experience at Universal Link Technologies. Experienced in developing and maintaining web applications, designing databases, building RESTful APIs, and implementing backend solutions using Laravel and PHP. Committed to writing clean, scalable code and continuously improving technical and problem-solving skills.

USER BLOG POSTING SYSTEM

UNIVERSITY FYP

Developed and maintained the backend of a role-based web application using PHP and Laravel, implementing authentication, RESTful APIs, and CRUD functionality for Admin, Author, and User roles. Designed and optimized the database structure while integrating email notifications and security best practices to ensure scalability and performance.

ASHIKSARDAR.COM

FREELANCE PROJECT

Contributed to the development and maintenance of ashiksardar.com by implementing new features, managing website settings, and ensuring smooth functionality across multiple pages. Worked on data retrieval, listing modules, content management, and backend enhancements to improve overall user experience and system performance.
